PROFESSIONAL EXPERIENCE

Rapid Armored Corporation | Roselle NJ

2018 – 2024

Vault Security Specialist 2021-2024

- Ensured 99% accuracy in managing and recording high-volume financial transactions by identifying and resolving discrepancies before submission.
- Optimized asset tracking and reporting by maintaining organized digital and physical records, enabling rapid retrieval and compliance with security protocols.
- Increased operational efficiency by 30% by prioritizing tasks, meeting strict deadlines, and adapting quickly to new software and inventory systems like Morphis.
- Enhanced data integrity by utilizing Microsoft Excel and specialized tracking software to reconcile discrepancies and maintain real-time inventory updates.

Armored Truck Dispatch Technician 2018 - 2020

- Enhanced security and operational efficiency by scheduling and leading shift teams of 8–10 associates while implementing engagement and training initiatives.
- Improved client satisfaction by streamlining onboarding, billing review, and inquiry processes, training staff to exceed quality interaction standards.
- Ensured 100% compliance with auditing and security protocols by monitoring high-value cash deliveries exceeding \$100K, maintaining accuracy and operational excellence.

TECHNICAL TRAINING

Full Stack Developer Trainee

- Completed an intensive 24-week Full Stack Developer training program, gaining hands-on experience in both front-end and back-end development technologies, including HTML, CSS, and JavaScript.
- Developed proficiency in building responsive and interactive user interfaces using popular front-end frameworks such as React.js, ensuring a seamless user experience across various devices.
- Acquired essential back-end development skills through practical training in server-side scripting with Node.js, utilizing Express.js for efficient routing and building scalable web applications.
- Demonstrated the ability to work with databases by mastering fundamental database management concepts and hands-on experience with MongoDB, ensuring effective storage and retrieval of data.
- Collaborated with peers on real-world projects, applying Agile development methodologies, version control using Git, and participating in regular code reviews, fostering a collaborative environment.
